Proposals Due: April 22, 2011

INTRODUCTION

Yuba County, through the Health and Human Services Department, is inviting qualified public or private-nonprofit agencies and organizations (including faith based and institutions of higher education) with recognized expertise in child welfare to submit proposals for the provision of child abuse and neglect prevention, intervention services and activities in accordance with Welfare and Institutions Code (W&I C), Sections 18960 - 18967. This is summarized in pertinent part as follows;

1. Priority **shall** be given to primary prevention¹ programs through non-profit agencies, including, where appropriate, programs that identify and provide services to isolated families, particularly those with children five (5) years of age or younger, high quality home visiting programs based on research-based models of best practice, and services to child victims of crime. Applicants must provide leadership roles for the meaningful involvement of parents in the development, operation, evaluation, and oversight of programs and services.
2. Services provided shall be culturally and linguistically appropriate to the population served.
3. Services may include, but not be limited to, family counseling, day care, respite care, teaching, and demonstrating homemakers, family workers, transportation, temporary in-home caretakers, psychiatric evaluations, multidisciplinary teams services and special law enforcement services.
4. Applicants shall demonstrate the existence of a 10 percent cash or in-kind match, other than funding provided by this RFP, that will support the goals of child abuse and neglect prevention and intervention.
5. Priority for services shall be given to children who are at high risk, including children who are being served by county welfare departments for being abused and neglected and other children who are referred for services by legal, medical and social services agencies.
6. Services to minority populations shall be reflected in the funding projects.
7. Projects shall be related to the needs of children, especially those 14 years and under.
(Excerpt W&I Section 18961)

¹ The W&I Code does not include a specific definition for "primary prevention," a survey completed by Child Abuse Prevention Councils in spring of 2000 provided the following definition for primary prevention: Any activities that prevent abuse or neglect from occurring at all.

The proposal will be for the provision of Path #1 and Path #2 Differential Response (DR) services including child abuse and neglect prevention, intervention services and activities.

A brief description of DR Services follows:

Every year, California county child welfare agencies receive more than one-half million reports of suspected child abuse and neglect. Of these referrals, the vast majority of the cases receive no services, despite assessments that indicate families would benefit from services and support to prevent child abuse and neglect.

Differential Response offers additional services for ensuring child safety – which include engaging families whenever possible to help identify solutions to the challenges that they may be facing and that are posing risks to a child’s safety and wellbeing. The outcome for Yuba County is that child abuse and situations of risk in the home will be reduced, and more children and families will get the support they need to help keep children safely in their homes. The children served by this program are potential candidates for out-of-home placement unless these preventive services are provided.

Path #1: Community Response. This path is chosen when allegations do not meet statutory definitions of abuse or neglect, yet there are indications that a family is experiencing problems that could be addressed by community services. Under California’s traditional child welfare system, more than one-third of all cases are re-referrals from the previous year, indicating that there are continued challenges facing these families and their children. With Differential Response, these families are linked to services in the community through expanded partnerships with local organizations.

Path #2: Child Welfare Services (CWS) and Community Response. This path is chosen when reports meet statutory definitions of abuse and neglect, and assessments indicate that with targeted services a family is likely to make needed improvements to improve child safety. Assessments determine a child’s risk is low to moderate. In this situation, families work with representatives of county child welfare agencies, other county agencies and community based organizations to identify their risks and strengths and to participate in services for improving child and family well-being. The focus of this path is on a family’s willingness to make needed improvements. If a family situation deteriorates and a child’s safety is in danger, child welfare officials intervene as needed.

The current fiscal year CAPIT/CBCAP/Local Children’s Trust Fund amount available for release in Yuba County is \$90,000.00. The funding cycles are July 1, 2010 through June 30; 2011; July 1, 2011 through June 30, 2012;and, July 1, 2012 through June 30, 2013.

This Request for Proposal (RFP) does not commit the County to award a contract nor to pay any costs incurred in preparing a proposal. The County reserves the right to accept or reject any or all proposals. Items that may be negotiated include type or scope of services and activities, budget, and administrative and program structure. This is a process to select service providers with whom the County may subsequently enter into a written contract. The County reserves the right to waive deviations from this RFP.

Upon recommendation from the Children's Council (who acts as Yuba County's Child Abuse Prevention Council), and approval by the Board of Supervisors, qualified contractors will be selected to provide services and activities within Yuba County upon contract commencement date through June 30, 2013. Funding is contingent upon satisfactory performance and subject to availability of CAPIT and CBCAP funds. The County reserves the right to decrease the maximum amount of funds awarded depending on the amount of funds allocated for the CAPIT and CBCAP programs.

Proposals will be reviewed by a committee of the Children's Council for completeness and adherence to RFP instructions. The Committee will evaluate and score proposals, as the process is competitive. They may require interviews during scoring to discuss proposals. Applicants may be required to provide proof of liability insurance, current audited financial statements, or other documents deemed necessary to assist the Committee in developing funding recommendations.

Any and all contracts awarded will contain at least, but will not be limited to, the provisions outlined in the *Agreement for Professional Services* (Attachment 1).

SCOPE OF SERVICES

A. Differential Response (DR) Program Description

The purpose of the DR program is to identify families where there is an early risk of possible child abuse or neglect, but insufficient risk to require a CWS investigation. The DR Provider will offer neighborhood-centered services to families referred for DR by Yuba County CWS. In a neutral, strength-based manner, services will be designed to help families identify problems, access services, strengthen the family unit, and promote the safety and well-being of children.

1. Referrals designated as Path 1 referrals will come from CWS, and will meet the following criteria:
 - a. The family lives in the geographic area served by the Contractor.
 - b. Any previous CWS history has been reviewed and the referral is determined appropriate for Differential Response services.
 - c. The referral is not being assigned for an in-person investigation.
2. Referrals designated as Path 2 referrals will meet the following criteria:
 - a. The family lives in the geographic area served by the Contractor.

- b. Any previous CWS history has been reviewed and the referral is determined appropriate for Differential Response services.

- a. Conduct an evaluative review of the safety factors, risks and strengths of the families, and develop a plan for delivering pre-placement prevention services.
 - b. Conduct safety assessments on the first visit to determine whether there is such risk to the child that the case should be referred back to CWS. If the case will not be referred back, a service plan, created with the family's participation, will address the identified problems and also identify and make available needed services to the extent possible.
 - c. Provide services that are neighborhood-centered. When services cannot be provided in the community, describe how you will work with the family to reduce barriers by assisting with appropriate transportation, scheduling, translation, or other help.
 - d. Provide outreach to the referred families, develop the case plan, and provide case management services.
 - e. Assist families in identifying problems without fear that they will be stigmatized within the child welfare system.
 - f. Support the DR case manager, such as through monthly meetings and other regular contacts with Yuba County CWS staff.
 - g. Provide statistical and other data on the progress of DR services through monthly reporting, possible input into data systems, participation at regular meetings and information for evaluation purposes.

The Sample Cost Justification displays an example of an in-depth cost justification worksheet.

Please create and complete an operating budget utilizing the *Cost Justification Worksheet* format shown in Attachment 5 showing the individual costs of expenses necessary to provide services, the methodology used in determining the costs of these expenses, the total cost of services provided, and the calculated service unit amount.

COMPLETION OF THE COST JUSTIFICATION WORKSHEET

1. Personnel Expense

Salary: Show the salary cost for each staff member performing services, based on actual salary and the expected time to be spent performing services. Staff should be identified by name, as well as position/classification title.

Benefits: Show cost of benefits paid by type of benefit for each staff member performing services. If the benefits are for employees whose time spent performing services are at different percentages, the benefits should be broken out by individual staff. Benefits can only include those benefits that are paid by the employer on behalf of the employee, such as Health Insurance, Worker's Compensation, Unemployment Insurance, etc.

2. Operating Expense:

Under Operating Expense, show the costs of individual expenses directly associated with providing services. For costs such as office supplies, postage, educational materials, and communication, best estimates based upon the activities and services to be performed should be shown. For operating expense costs such as rent, more detail and/or methodology should be shown. *For example:*

Rent - if the rent is based upon office space plus common space of 150 sq. ft. per person for the staff listed in Exhibit I – Sample Cost Justification Worksheet, the methodology and cost would be estimated as follows:

Counselor II: 150 sq ft x \$1.00 per sq ft. x 80% x 12 mos. = \$1,440
Interv. Coord: 150 sq ft x \$1.00 per sq ft x 50% x 12 mos. = \$ 900
Total Rent \$2,340

For the above example, the methodology, "150 sq. ft. \$1.00 x Prorated Share or FTE %x 12 mos." would be shown on the Cost Justification Worksheet.

3. Subcontractors:

Identify and show the cost of services provided through a sub-contractual agreement, including the methodology used for determining these costs. A copy of the subcontract must be provided. The subcontract must specify the means by which the actual costs of activities or services rendered are determined and paid.

Payment under a subcontract cannot be based on a flat rate nor paid incrementally on the basis of a flat rate.

4. Indirect Expense:

Indirect expenses are those costs not directly identified with the performance of activities or services and whose costs cannot be specifically identified. The amount of Indirect Expense shown on the Cost Justification Worksheet cannot exceed 10 percent of the Total Personnel Expense. A brief summary of costs should be shown under methodology.

5. Direct Expenses / Service Costs:

Direct Expenses/Service Costs are those costs directly identified with the delivery of activities or services that are not personnel related. A brief summary of estimated costs should be shown under methodology.

For example:

Transportation – Bus passes or gasoline vouchers to attend counseling.

Food – Temporary food assistance.

Housing – Assistance with cleaning supplies or renting a carpet cleaner or a dumpster to make a place habitable.

6. Cost Per Service Unit:

The cost per service unit is the rate to be charged for the cost of providing service. The methodology applied to the Total Amount to Service Cost to determine this rate should be described and the service of unit identified under “methodology”. *For example: in the Sample Cost Justification Worksheet, the service unit is the cost of providing monthly counseling services to one family, based upon an average of 10 families per month.*

7. Audit:

An audit of the costs for services rendered and claimed will not be required. However, contractors will be required to provide a copy of the report for the most recent annual audit performed for their organization. The audit must have been made by an independent auditor in accordance with generally accepted auditing standards and must include the entire organization.

8. Invoice:

Contractors will be required to submit a summary invoice for payment on a monthly basis by the specified deadline and in the format specified (Attachment 6). The summary invoice will contain a certification statement to be signed by the Authorized Representative specified by the contractor. Payment will be issued within thirty (30) days of receipt complete and accurate summary invoices. Advance payment will not be made; payments will only be made in arrears for the actual costs of services provided.

9. Other:

Any contractor awarded a contract as a result of this RFP and who is also funded from multiple contracts, directly or indirectly, must demonstrate that the funds are

used for the sole purpose of the specific contracted services for which intended. The contractor's request for reimbursement from multiple contracts cannot exceed 100 percent of the cost incurred for employees, overhead, or operating costs.
