

Question/Answer Addendum to Request for Proposals for Painting Services

Q1: Is there a response time on projects?

A1: The County will make reasonable efforts to ensure that the contractor has an opportunity to establish their own schedule for most projects, but some projects may have vital deadlines and the County is therefore interested in what response times can be guaranteed by each Contractor.

Q2: Can you tell us what the County's average cost per project will possibly be?

A2: As the projects are of variable scope and nature, ranging from a small caulking project to a complete interior paint, an average cost is difficult to calculate. However, as an example, the most recent interior painting project was awarded for \$21,600. This is intended as an example and not a guarantee that any or all projects will reach this dollar amount.

Q3: Can you call us out for a project less than \$1,000.00?

A3: As stated in the RFP (Section I, paragraph 1), and reiterated in Q1 above, there may be projects of a precise and immediate nature that require Painting or paint-related services. These instances may or may not rise to the level of \$1000.00 worth of services. As such, the County would expect the Contractor to be available for the entire range of projects unless the Contractor has otherwise excluded the specified work in the Proposal.
