

Yuba County Request for Information

12/16/2010

Electronic Media Destruction Services

Yuba County is looking for providers who can do onsite destruction of computer hard drives, backup tapes, memory and other electronic storage media as needed.

If you are a provider of these services, please let us know about your firm. Include contact information and information about what services you provide, what types of media you can take, and how destruction is completed from start to finish.

This is only a request for information. A vendor selection will not be made based on this information; we are simply looking to develop a list of vendors who provide this service. If there are multiple respondents who provide the required services, it is expected that the County will do a Request for Proposal/Quote process.

Responses

Please respond by Monday, January 10, 2011 to:

Tara Repka Flores, Assistant Director of Administrative Services
County of Yuba
Administrative Services
915 8th Street, Ste 119
Marysville, CA 95901
